

This STATA command reproduces the left hand side of Table 1:

```
oprobit transfer chinadummy gruppdummy round Ocorruptionlastround income
Likelihoodofreturnseiece combatontocorruption Trendofcorruption if
rotationdummy==0 & Ocorruptionlastround<5 , cluster (nummer)
```

This STATA command reproduces the right hand side of Table 1:

```
oprobit Ocorruption chinadummy gruppdummy round transferecurrentround
income Likelihoodofreturnseiece combatontocorruption Trendofcorruption if
rotationdummy==0 & Ocorruption<5 , cluster (nummer)
```

This is the correspondence of variable names:

DATA SET	TABLE 1 in the paper
chinadummy	China (<i>dummy</i>)
gruppdummy	Group (<i>dummy</i>)
round	Round (<i>1-10</i>)
Ocorruptionlastround	Choice of the official last round (<i>1: reporting (least corrupt), 4: reciprocity (most corrupt)</i>)
transferecurrentround	Amount of bribery from the firm (<i>0-8</i>)
income	Available income (<i>1: less than 400 €, 4 : more than 1200 €</i>)
Likelihoodofreturnseiece	Belief about success of bribes in general (<i>1: extremely uncertain, 5: extremely certain</i>)
combatontocorruption	Assessment about anti-corruption policy in home country (<i>1: very ineffective, 5: very effective</i>)
Trendofcorruption	Assessment about trend of corruption in home country (<i>1: increasing, 3: decreasing</i>)

This STATA command reproduces the left hand side of Table 2:

```
oprobit transfer chinadummy FFF FFM FMM round Ocorruptionlastround income
Likelihoodofreturnseiece combatontocorruption Trendofcorruption if
rotationdummy==0 & Ocorruptionlastround<5 & gruppendummy==1, cluster
(number)
```

This STATA command reproduces the right hand side of Table 2:

```
oprobit Ocorruption chinadummy FFF FFM FMM round transferecurrentround
income Likelihoodofreturnseiece combatontocorruption Trendofcorruption if
rotationdummy==0 & gruppendummy==1 & Ocorruption<5 , cluster(number)
```

This is the correspondence of variable names:

DATA SET	TABLE 2 in the paper
chinadummy	China (<i>dummy</i>)
FFF	FFF (<i>dummy: group with 3 women</i>)
FFM	FFM (<i>dummy: group with 2 women and 1 man</i>)
FMM	FMM (<i>dummy: group with 1 woman and 2 men</i>) ^a
round	Round (<i>1-10</i>)
Ocorruptionlastround	Choice of the official last round (<i>1: reporting (least corrupt), 4: reciprocity (most corrupt)</i>)
transferecurrentround	Amount of bribery from the firm (<i>0-8</i>)
income	Available income (<i>1: less than 400 €, 4 : more than 1200 €</i>)
Likelihoodofreturnseiece	Belief about success of bribes in general (<i>1: extremely uncertain, 5: extremely certain</i>)
combatontocorruption	Assessment about anti-corruption policy in home country (<i>1: very ineffective, 5: very effective</i>)
Trendofcorruption	Assessment about trend of corruption in home country (<i>1: increasing, 3: decreasing</i>)
